

Hold me

(Øystein Sørensen)

Won't you just hold me
Like you used to
And Just like the night
Your love
Blew into my heart

If you embrace me
Like you used to
Let the wind and the sea
Help me
Dive into your love
Dive into your light

If I forget
You will remember

So please just hold me
Like you used to.
With the sun in our eyes
And we have nothing to disguise

When I reach out
For you
Just hold me
Like you used to

Hold me (like you used to). April 2020 første utkast.

Want you just hold me
Like you used to
Just like the night
That your love
blew into my heart

So please just hold me
like you used to
as the wind and the sand
made beaches of hope
for you and me

If I forget
Will you remember?

So please just hold me
like you used to
when the breeze and the water
unite in a wave
then our love
is true

So please just hold me
like you used to.
The wind and the sand
make beaches of lover
for you and me.
